In the proceeding of the board of supervisors is mentioned the letting of a contract to Mr. Peter Early for the building of a road around Starr Hill. Mr. Early informed us yesterday that he was ready to furnish a bond, but should not do so, as he was unable to secure quarters for his men near the work, as Mr. Gordon, who owned the only suitable building near the work, refused to rent them. Mr. Early further stated that he had intended to employ Chinese in the work and employ them; but had been informed by Supervisor Stafford that such employment would not be allowed, as he couldn't get quarters for white men, and might not hire yellow men, he threw up the job. The next lowest bidder, Mr. Gilbert, will probably be awarded the contract.

While on board a steamer going south your correspondent overheard the following conversation between a San Franciscan and an Eastern lady visiting this coast. The Eastern lady said she had seen everything around San Jose San Francisco and northward. "What do you think of the seals," said the other. "Seals! I saw no seals." "Did you not see the seals at the Cliff House?" Where is that? "It is at the Golden Gate, I suppose you went through the Golden Gate Park." "No, I never heard of it." The San Franciscan lady went on to explain about these things which seemed new and interesting to her companion who thought she had seen everything. We can hardly hope this is altogether an isolated case. During this same voyage your correspondent heard a young Eastern lady speak with pleasure of driving out to San Mateo. But it was not altogether pleasant to reflect that while Santa Barbara, Los Angeles and San Diego are full and overflowing with visitors we rarely see one, and yet during the whole trip I saw no county looking so well

as San Mateo County. San Diego, though quite a city, and building up rapidly, is built on sand and cobbles with streets unsafe to drive on after dark, weeds more plentiful than any other vegetation, water more precious and expensive than gold. Santa Barbara is exceedingly picturesque, sheltered from the sea by a low ridge, and shut off from the wind by a rugged rocky ridge of mountains. It appears only accessible by water. A nice place to visit, but I imagine, not so nice for permanent residence.

## Belmont.

Belmont is well represented at Rev. C. S. Fackenthal's singing classes.

A number of Belmont boys were on the coast trout fishing Monday and Tuesday.

Mrs. Stevenson of San Jose has rented one of the O'Neill houses, moving in last Thursday.

Mr. Fred Sharon has a force of carpenters and painters busily engaged in renovating the Sharon place.

A number of desks have been placed in the school-house to accommodate the increased number of scholars.

Prof. W. T. Reid of the Belmont School will soon erect a building containing eighteen rooms, so he can accommodate fifty pupils, instead of twenty-five.

Mr. William Newhall, Jr. of San Francisco spent part of last week at his father's, Mr. Charles Caney of Frisco is visiting at Belmont. Mr. and Mrs. John Hopper, (nee Lizzie Johnson), of San Francisco, were out Sunday.

San Mateo County Abroad.  
Rosenblum & Abraham (our Harry), formerly of 1220 Market street, San Francisco, are now located at No. 1103 Market street, in the Odd Fellows' Building, where they will be pleased to see old and new patrons.

have the funeral in Arroyo Grande last Monday. And had it taken place as planned the gathering doubtless would have been the largest that ever took place in the county. As it was, the business houses of the village were closed and business ceased during the service, while a large delegation, including the officiating clergyman, accompanied the dead body and its stricken custodian to Port Harford, at which place, on Wednesday morning, the steamer Los Angeles was taken for San Francisco. Mr. Sylvester Walker, accompanied by his nephew, John R. Walker, reached here last Thursday night, and were met at the depot by a delegation from Metamor Tribe, under whose auspices the funeral was held. Strange to relate, the body, which had been placed on ice, had not discolored, and when the rough coffin had been opened, so as to place the body in the handsome casket chosen, the features were found to be singularly life-like and natural. The eyes, opened slightly by the motion of the journey, had nothing of the rigid and staring immobility of death, but met the gaze with a soft, tranquil, almost serene expression. The funeral took place at 10 A. M. yesterday from the hall of Metamor Tribe. The attendance, both of brother Red Men and of friends and acquaintances, was large. At the grave the solemn ritual of the order he so well loved was read by Past Rachech Edward Hanson and G. H. Buck, and each brother present dropped a sprig of cypress and a spadeful of earth upon the coffin. Many beautiful floral offerings were given, among them a large tamahawk of ferns and white flowers, presented by the tribe and made by Mr. Jerome Turner.

The following account of the murder as related by Mrs. Walker, is taken from the San Luis Obispo Register: "Mrs. Walker and her husband were transplanting tomato vines in their garden at the rear of their house, about 4 o'clock Wednesday afternoon Walker digging with a spade, while she planted. They were about 20 feet apart. She heard a shot behind them and saw her husband fall. She turned around and saw, leaning against the fence, Julius Hemmi taking deliberate aim at her, and before she could move he fired, the bullet striking her right breast and passing through the lung; then she fell to the ground. Her husband, she says, then endeavored to raise himself on his elbow when the murderer shot again, and Walker then lay quiet. She then tried to get up, and Hemmi fired at her again, the bullet striking her on the left arm, shattering it terribly. This plucky woman says she then saw that she need expect no mercy from the fiend, and had presence of mind enough to feign death, throwing her right hand over her face, and looking out through her fingers, and remaining motionless. Hemmi stood watching their prostrate bodies for fully five minutes, holding his rifle in readiness to shoot them again should they show any signs of life. A little dog of Walker's ran toward him barking and he shot the dog. The mortal agony this brave little woman suffered during the time this inhuman monster stood over her must have been, indeed a living death. He finally became satisfied that he had successfully finished his massacre, and turning about walked off—the first time he had moved since he began firing. This poor mutilated woman then dragged her tortured little body to where her husband lay, calling, 'Eugene, my husband, speak to me!' But Eugene had passed on. Mrs. Walker dragged herself into the house, and rallying herself by a superhuman effort clasped her poor, fatherless baby in her injured right arm, and with the blood spurting out of her wounded breast, exhibiting the grand spectacle of a mother's love being above all earthly pain, she started to reach J. J. Myrtle's residence, two miles away. Dragging, stumbling, bleeding, crawling, but ever holding her baby close to her shattered frame, this heroic, widowed martyr to a wife and mother's duty, desperately forced her way to aid and protection. After going nearly a mile she encountered a daughter of Hemmi on horseback. She seized the girl and mounted and hid her on the horse, and managed to reach Mr. Myrtle's house without molestation."

A typographical error in last week's issue made it seem that Eugene worked in this office only three years. He worked in reality from 1871 to 1883, nearly 13 years.

Mrs. Walker was in a critical condition when last heard from. Neither bullet had been extracted. But she has youth, great vitality, medical skill and the untiring attendance of her sister and brother, Mrs. Thomas Shine and Mr. Malcolm Boyd.
